PROFESSIONAL SUMMARY

Product Marketing Manager with 6+ years in B2B marketing, worked across product-led (PLG) and sales-led (SLG) motions, with hands-on experience building the PMM function from zero at a vertical AI SaaS company. Specialize in positioning, messaging, homepage strategy, sales enablement, competitive intelligence, GTM launches, and AI-native go-to-market. Track record of shortening sales cycles, sourcing pipeline, lifting conversion, and translating technical AI products into buyer-ready messaging.

PROFESSIONAL EXPERIENCE

Product Marketing Manager | Prudent AI | April 2025 – Present | Chennai

First PMM hire at a vertical AI SaaS company building AI decisioning software for US mortgage lenders (Non-QM, DSCR, and full-doc workflows). Built the PMM function from zero.

- **Led GTM for the Upfront Income product launch:** positioning, messaging, launch collateral, and sales rollout—driving 12 high-value demo requests directly attributed to the launch.
- **Lifted homepage conversion by 7%** by repositioning it to serve both QM and Non-QM lender segments without alienating either audience. A rewrite grounded in customer research and win/loss analysis.
- **Built a competitive intelligence workflow on Claude Cework** that delivers weekly updates on competitor messaging shifts, content changes, and PR mentions, replacing a manual, ad-hoc CI process.
- **Sourced and influenced \$300K+ in pipeline** through demand generation experiments and product launches including 7 deals at \$45K ACV and one \$100K deal.
- **Cut sales cycle from 100 to 86 days over 6 months by automating post-call sales enablement:** Built a Fathom + Zapier workflow that ships instant call summaries, enabling 24-hour turnaround of prospect-specific battlecards, one-pagers, objection handling docs, and competitor teardowns.
- **Shipped full-funnel sales collateral:** battlecards, talk tracks, one-pagers, pitch decks— and built an internal sales chatbot for on-demand enablement access.
- **Own positioning and messaging hierarchy** across the product portfolio; ran a full positioning exercise across Product, Sales, Customer Support, and Marketing to align on ICP, value props, and category language.
- **Built the "Industry vs. Prudent AI" onboarding workflow:** A market and product ramp-up guide still used by every new joiner across teams to understand the mortgage tech landscape.
- **Conduct product and market workshops for new hires** across Product, Sales, and CS to accelerate ramp time.
- **Run customer interviews, win/loss analysis, and CI;** insights feed positioning, roadmap conversations, and enablement priorities.
- **Partner cross-functionally** with Product Managers, Account Executives, Customer Success, and Founders to translate a technical AI product into language mortgage lenders trust.

Product Marketer | Animaker Inc | August 2022 – April 2025 | Remote (US)

Owned PMM across launches, enablement, and customer research for Vmaker, a PLG SaaS in the video creation space.

- **Grew monthly signups from 1,500 to 10,000 (6.5x) over 3 quarters** with product-led and use-case-led landing pages as the primary acquisition channel, mapped to high-intent search terms and audience segments.
- **Lifted feature adoption rate by 15%** by rebuilding the onboarding flow and in-product messaging, informed by Hotjar session replays and Microsoft Clarity funnel analysis.
- **Co-owned GTM for Vmaker AI,** Animaker's AI video editor — positioning, messaging, launch content, and in-product onboarding.
- **Ran competitive teardowns and category mapping** against VEED, InVideo, and Kapwing to inform positioning and feature messaging.
- **Partnered with the Digital Marketing Manager** on paid and organic channels feeding MOFU landing pages; owned the messaging layer end-to-end.
- **Built product-led content and sales enablement collateral** supporting activation, expansion, and product champion programs inside target accounts.
- **Ran ICP research and customer interviews** that informed the product roadmap and positioning refresh.

Copywriter | Glocom Retail Pvt. Ltd. | June 2020 – August 2021 | Chennai, India

- **Drove influencer-led revenue of \$14K on \$3K spend (4.6× ROAS)** by co-leading the Instagram influencer partnership program with the Social Media Manager — launching brand collaborations well before Instagram's mainstream influencer marketing boom.
 - **Wrote SEO product content, category pages, and outreach copy** across retail brand campaigns.
 - **Owned the cross-functional Marketing Calendar** used by product procurement, Facebook and Google Advertising, social media, and email marketing teams.
-
